Lesson: 1: Identifying Problems and Solutions in the Story
Problem and Solution is a pattern of organization where information in a passage is expressed as a dilemma or concerning issue (a problem) and something that was, can be, or should be done to remedy this issue (solution or attempted solution). The problem and solution text structure may seem like it would be easy to recognize, but it can be moderately difficult to identify because it is frequently confused with the cause and effect pattern of organization, as they both have relational ...

Problem and Solution | Ereading Worksheets
In this article Nick Patterson describes the process of identifying, selecting and implementing solutions to problems. In the previous steps we have framed our problem, analysed it and identified the root cause.

Identifying, selecting and implementing solutions
1. Identify the root cause of the problem by collecting information and then talking with stakeholders. Combining existing research and information from your stakeholders can offer some insight into the problem and its causes. Consider data sources that could help you more clearly define the problem.

Problem Identification
In composition, using a problem-solution format is a method for analyzing and writing about a topic by identifying a problem and proposing one or more solutions. A problem-solution essay is a type of argument. "This sort of essay involves argumentation in that the writer seeks to convince the reader to take a particular course of action. In explaining the problem, it may also need to persuade the reader concerning specific causes" (Dave Kemper et al., "Fusion: Integrated Reading and Writing ...

Problem-Solution Essays: Definition and Examples
One of the most common (and deadly) mistakes in entrepreneurship is creating a solution before identifying the problem. You might think you have the next big idea, but have you really done the...

Entrepreneurs: Here Is How You Can Find Problems to Solve ...
Analyzing community problems is a way of thinking carefully about a problem or issue before acting on a solution. It first involves identifying reasons a problem exists and then, identifying possible solutions and a plan for improvement. Example: The downtown area of a community is declining. Stores are closing, and moving out; no new stores are moving in.

Section 5. Analyzing Community Problems
We identify problem spaces based on a wide range of inputs, using broad, sweeping horizon-scanning activities, alongside secondary research, expert interviews, and the work Rockefeller has done to date. Through this process, we often find connections and inter-relations among several trends that surface across problem spaces.
