~~[eBooks] Introduction To Bond Valuation Types Of Bonds~~

In the most broad sense: bonds are temporary while equity is permanent. In either form of financing, you're trading your company's future profitability for current cash. With bonds you're trading a fixed dollar amount of that profit while with equity you're trading a permanent entitlement to a percentage of your profits.

~~Introduction to bonds (video) | Khan Academy~~

In this module, you will be introduced to basic terms of bonds: coupons, face value, coupon rate, maturity, and yield to maturity. You will be presented with the ways to value level-coupon bonds and zero-coupon bonds. You will learn why companies would like to have their bonds rated, and what the factors are that determine the bond ratings.
