A lost city in the desert, wolf packs, a book, and, of course, a sword... The Book and the Sword was Louis Cha's first novel, published in 1955, and quickly established him as one of the new masters of the wuxia genre. The novel is panoramic in scope and includes the fantastical elements for which Cha is well-known: secret societies, kung fu masters, a lost desert city guarded by wolf packs, and the mysterious Fragrant Princess, an embellishment of an actual historical figure - although whether she actually smelled of flowers, we will never know. Further to that Cha revives the legend about the great eighteenth-century Manchu Emperor Qian Long which claims that he was in fact not a Manchu but a Han Chinese as a result of a baby swap. The Book and the Sword is a rip-roaring tale of Chinese kung fu masters battling it out for the future of the Chinese empire and control of central Asia.

The definitive modern take on the timeless tale of King Arthur and his Knights of the Round table. The legends of King Arthur date back to medieval Europe, and have become some of the dominant myths of Western culture. In The Once & Future King, T. H. White reinvents the story for a modern audience. The novel starts by introducing the reader to a young Arthur - just a child, and far from the King he will become - as he is raised by the wizard Merlin, and moves on to chronicle his rise to Kingship, the affair between Guinevere and Lancelot, and the eventual destruction of the round table. The first section, released independently as The Sword in the Stone, was adapted into an animated film by Walt Disney Pictures.
