"Now a major motion picture! Includes full-color movie photos and exclusive content!"--Dust jacket.

"It's a really great book: friendly, comprehensive, complete and up-to-date. It is an explanatory guide to help you judge and choose the contraception to use. I recommend the book highly." Dr Cindy Pan, general practitioner, media broadcaster and author of Pandora's Box. Choosing a method of contraception isn't simply about preventing pregnancy. It's also about making the best choice for your future, your lifestyle, your health and your peace of mind. This updated edition of Contraception-Healthy Choices provides both women and men with information to help make that choice. Forms of contraception covered include condoms (male and female), progestogen-only injections, implants; diaphragms, cervical caps, intrauterine devices (IUDs), natural family planning, traditional methods and sterilisation. The book also includes an update on the contraceptive pill, a new chapter on the increasingly popular vaginal ring, and new information on emergency contraception. There is information on how pregnancy happens, reducing the incidence of sexually transmissible infections and abortion. Written in an easy-to-read Q&A format and illustrated throughout, Contraception-Healthy Choices is a practical and contemporary guide for people who want to make an contraception they use.

The protection and preservation of a product, the launch of new products or re-launch of existing products, perception of added-value to products or services, and cost reduction in the supply chain are all objectives of food packaging. Taking into consideration the requirements specific to different products, how can one package successfully meet all of these goals? Food Packaging Technology provides a contemporary overview of food processing and packaging technologies. Covering the wide range of issues you face when developing innovative food packaging, the book includes: Food packaging strategy, design, and development Food biodeterioation and methods of preservation Packaged product quality and shelf life Logistical packaging for food marketing systems Packaging materials and processes The battle rages over which type of container should be used for which application. It is therefore necessary to consider which materials, or combination of materials and processes will best serve the market and enhance brand value. Food Packaging Technology gives you the tools to determine which form of packaging will meet your business goals without compromising the safety of your product.

The automotive industry appears close to substantial change engendered by "self-driving" technologies. This technology offers the possibility of significant benefits to social welfare-saving lives; reducing crashes, congestion, fuel consumption, and pollution; increasing mobility for the disabled; and ultimately improving land use. This report is intended as a guide for state and federal policymakers on the many issues that this technology raises.

Ten Strategies of a World-Class Cyber Security Operations Center conveys MITRE's accumulated expertise on enterprise-grade computer network defense. It covers ten key qualities of leading Cyber Security Operations Centers (CSOCs), ranging from their structure and organization, to processes that best enable smooth operations, to approaches that extract maximum value from key CSOC technology investments. This book offers perspective and context for key decision points in structuring a CSOC, such as what capabilities to offer, how to architect large-scale data collection and analysis, and how to prepare the CSOC team for agile, threat-based response. If you manage, work in, or are standing up a CSOC, this book is for you. It is also available on MITRE's website, [www.mitre.org](http://www.mitre.org).

Profiles technology as an evolving international system with predictable trends, counseling readers on how to prepare themselves and future generations by anticipating and steering their choices toward developing needs.

The author remembers the summer when she was ten years old and staying with her father in Michigan where she took riding lessons and became best friends with a perfect horse.
