“With its fascinating personalities that only Rinzler could describe, All Up can’t be put down.”—David Mandel, Veep executive producer All Up plunges its readers into the cloak-and-dagger espionage and blitzkrieg battles of World War II that swirled around rocketry; it introduces them to extraterrestrial phenomena, secret organizations, and the nail-biting missions launched from Cape Canaveral—as well as the secrets and unknown history behind Apollo 11’s legendary trip to the Moon. All Up tells the incredible true story of Nazi Germany’s Wernher von Braun, Soviet Russia’s Sergei Korolev, and America’s Robert Goddard as they work feverishly to fulfill their countries’ technological, military, and geopolitical objectives while satisfying their own personal obsessions. Alongside the Space Age history is the strange but well-documented trail of UFOs—one that leads to a desperate struggle in the highest corridors of power. Who will control the alien technology for their hidden agendas during the Cold War? Secret services compete worldwide in that ruthless game—and no one is a more deadly player than the mysterious agent named Rachel, hot on the trail of war criminal, former SS Brigadeführer Hans Kammler.

This enhanced eBook transforms The Making of Star Wars into an immersive multimedia experience worthy of the original film. It features exclusive content pulled from the Lucasfilm archives by author J. W. Rinzler: • 26 minutes of rare behind-the-scenes video\* • 29 minutes of rare audio interviews with the cast and crew • New bonus photos and artwork not found in the print edition After the 1973 success of American Graffiti, filmmaker George Lucas made the fateful decision to pursue a longtime dream project: a space fantasy movie unlike any ever produced. Lucas envisioned a swashbuckling SF saga inspired by the Flash Gordon serials, classic American westerns, the epic cinema of Japanese auteur Akira Kurosawa, and mythological heroes. Its original title: The Star Wars. The rest is history, and how it was made is a story as entertaining and exciting as the movie that has enthralled millions for more than thirty years—a story that has never been told as it was meant to be. Until now. Using his unprecedented access to the Lucasfilm Archives and its trove of “lost” interviews, photos, production notes, factoids, and anecdotes, Star Wars scholar J. W. Rinzler hurtles readers back in time for a one-of-a-kind behind-the-scenes look at the nearly decade-long quest of George Lucas and his key collaborators to make the “little” movie that became a phenomenon. It’s all here: • the evolution of the now-classic story and characters—including “Annikin Starkiller” and “a huge green-skinned monster with no nose and large gills” named Han Solo • excerpts from George Lucas’s numerous, ever-morphing script drafts • the birth of Industrial Light & Magic, the special-effects company that revolutionized Hollywood filmmaking • the studio-hopping and budget battles that nearly scuttled the entire project • the director’s early casting saga, which might have led to a film spoken mostly in Japanese—including the intensive auditions that won the cast members their roles and made them legends • the grueling, nearly catastrophic location shoot in Tunisia and the subsequent breakneck dash at Elstree Studios in London • the who’s who of young film rebels who pitched in to help—including Francis Ford Coppola, Steven Spielberg, and Brian DePalma But perhaps most exciting, and rarest of all, are the interviews conducted before and during production and immediately after the release of Star Wars—in which George Lucas, Mark Hamill, Harrison Ford, Carrie Fisher, Sir Alec Guinness, Anthony Daniels, composer John Williams, effects masters Dennis Muren, Richard Edlund, and John Dykstra, Phil Tippett, Rick Baker, legendary production designer John Barry, and a host of others share their fascinating tales from the trenches and candid opinions of the film that would ultimately change their lives. No matter how you view the spectrum of this phenomenon, The Making of Star Wars stands as a crucial document—rich in fascination and revelation—of a genuine cinematic and cultural touchstone. \*Video may not play on all readers. George Lucas spent nearly ten years bringing his dream project to life: a ground-breaking space fantasy movie. Its original title: The Star Wars. The rest is history. Yet its production is a story as entertaining and exciting as the movie itself. Now, recounted in the words of those who were there, it is finally being told, for the first time. Between 1975 and 1978, over fifty interviews were conducted with key members of cast and crew - George Lucas, Mark Hamill, Harrison Ford, Carrie Fisher, Anthony Daniels, composer John Williams, legendary production designer John Barry amongst many others. Remarkably, these candid and revelatory interviews have sat, undisturbed, in the Lucasfilm Archives for three decades. Until now. Using his unprecedented access to the archives and this treasure trove of never-before-published 'lost' interviews, photographs, production notes, factoids and anecdotes, J.W. Rinzler hurtles back in time for a definitive look at the genesis of a cinematic legend. A true story of human endeavour and creativity, The Making of Star Wars reveals exactly

George Lucas spent nearly ten years bringing his dream project to life: a ground-breaking space fantasy movie. It would be a swashbuckling sci-fi saga inspired by vintage Flash Gordon serials, classic American westerns, and mythological heroes. Its original title: The Star Wars. The rest is history. Yet its production is a story as entertaining and exciting as the film itself. Now, recounted in the words of those who were there, it is finally being told, for the first time. During the years 1975 to 1978, over fifty interviews were conducted with key members of the cast and crew. Remarkably these interviews have sat, undisturbed, in the Lucasfilm Archives for three decades. Until now. The interviews are fresh, candid and – above all – more accurate than many other reported accounts. George Lucas, Mark Hamill, Harrison Ford, Carrie Fisher, Anthony Daniels, composer John Williams, legendary production designer John Barry, and a host of others share their fascinating tales of overcoming obstacles – storms, crises, technical limitations, high stress and bitter disappointment – while displaying real ingenuity, heroism and creativity. Using his unprecedented access to the Lucasfilm Archives and this trove of never-before-published ‘lost’ interviews, photographs, production notes, factoids and anecdotes, J. W. Rinzler hurtles readers back in time for a definitive look at the making of Star Wars. For the first time, it’s all here: \* The evolution of the now-classic story and characters – including ‘Annikin Starkiller’ and a ‘huge green-skinned monster with no nose and large gills’ named Han Solo \* Excerpts from George Lucas’s numerous, ever-morphing script drafts \* The birth of Industrial Light & Magic, the special-effects company that revolutionised Hollywood film-making \* The studio-hopping and budget battles that nearly derailed the entire project \* The director’s early casting saga \* The gruelling, nearly catastrophic location shoot in Tunisia and the following breakneck dash to Elstree Studios in London Lavishly illustrated with hundreds of images spanning the creation of the film, The Making of Star Wars is a piece of cinema history. It is the true story of human endeavour and creativity that led to the production of one of the most outstanding and innovative movies of all time.
