I would like to write why I didn't like this play. (The book itself came to me in good time, and in excellent shape. I have no problems at all with the shipper, only with the book) The play dramatized a "prodigal son returns to the home" tale; only this time the "son" is an adult woman, a widow who has returned to working class, down at heel Wakefield, Massachusetts to attend to her brother's ...

Friday was Daffodil Day here in Australia.
As a family, we too have been touched by
the condition and recently lost a much-
loved relative. This, the last weekend of
the Australian winter, was the official fund-
raiser for the Cancer Council, so I thought
I should go out and find a daffodil that was
not affected by last week's frosts.

disappeared. So the head of the agency and his two top agents went in and managed to get out with their discovery: an invasion is underway by slug-like aliens who can touch a human and completely control his or her mind. What the humans know, they know. What the slugs want, no matter what, the human will do. And most of Iowa is already under their control. Sam Cavanaugh was one of the agents who discovered the truth. Unfortunately, that was just before he was taken over by one of the aliens and began working for the invaders, with no will of his own. And he has just learned that a high official in the Treasury Department is now under control of the aliens. Since the Treasury Department includes the Secret Service, which safeguards the President of the United States, control of the entire nation is near at hand . . . "A green hunting cap squeezed the top of the fleshy balloon of a head. The green earflaps, full of large ears and uncut hair and the fine bristles that grew in the ears themselves, stuck out on either side like turn signals indicating two directions at once. Full, pursed lips protruded beneath the bushy black moustache and, at their corners, sank into little folds filled with disapproval and potato chip crumbs."
