NEW YORK TIMES BESTSELLER 'Reilly pokes more holes in Trump's claims than there are sand traps on all of his courses combined. It is by turns amusing and alarming.' -- The New Yorker 'Golf is the spine of this shocking, wildly humorous book, but humanity is its flesh and spirit.' -- Chicago Sun-Times 'Every one of Trump's most disgusting qualities surfaces in golf.' -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green -- and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much of all that is true? Almost none of it. acclaimed sportswriter Rick Reilly reveals in this unsparring look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, Commander in Cheat is a startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the "Trump Bump"), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the etiquette of the game (driving on greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the most bombastic businessmen of our time. As Reilly writes, "Golf is like bicycle shorts. It reveals a lot about a man." Commander in Cheat "paints a side-splitting portrait of a congenital cheater" (Esquire), revealing all kinds of unsightly truths Trump has been hiding.

People are as interesting in painting and customizing now, as they were when this material was first created, in the 1950s. Everyone wants to know how to do a flame job, or how to run a pair of pinstripes straight down the side of their car. In this book George Barris explains how he and brother Sam did their custom painting and early flame jobs in the 1950s. No one can tell this story as well as George Barris, a fine photographer and the man who built many of the cars shown in the book. This particular book, Volume 4, contains more than just the photos and words of George Barris. This volume contains first-person side-bars by legendary painters and builders like Dean Jeffries and Larry Watson, describing how they developed their talents and what it was like to customize cars in those days.
